

# CP4B and CP4D (Permanent Wildlife Habitat)

## CRP Mid Contract Management

Name: \_\_\_\_\_

See attached aerial photo for areas to be treated.

Field(s): \_\_\_\_\_

Tract: \_\_\_\_\_

CP4B and CP4D (Permanent Wildlife Habitat) – For 10-year contracts, MCM will be applied in years 4, 5, and 6 of the contract. For contracts over 12 years in length, apply MCM in years 5, 7, and 9. Apply to the vegetative cover but not to areas planted to trees or shrubs unless required by the District Forester or NRCS. **(Choose one.)**

	MCM Options	Field #	Acres
<input type="checkbox"/>	Disk		
<input type="checkbox"/>	Disk & Interseed		
<input type="checkbox"/>	Spray		
<input type="checkbox"/>	Spray & Interseed		
<input type="checkbox"/>	Burn		
<input type="checkbox"/>	Burn & Interseed		
<input type="checkbox"/>	Interseed Only*		

Begin MCM in \_\_\_\_\_.

**\* See following special interseeding information.**

- Interseeding. According to NRCS FOTG (327) Conservation Cover standard, interseeding requires that existing vegetation be weakened prior to interseeding. For CRP, the stand may be weakened by disking, prescribed fire or chemical application prior to the interseeding operation.
  - IF the stand was hayed or grazed, this also meets the criteria that stand be weakened prior to interseeding.
- Time periods for CRP interseeding of introduced forbs and legumes: August 2 to September 30 or March 1 to May 14.
- Time periods for CRP interseeding of native forbs and legumes: April 15 to May 14.
